## Zsolt József Simon

The Hungarian-born ceramic artist Zsolt Simon is one of the top international representatives of his genre. Galerie Biró is very pleased to expand its portfolio with this high-ranking artist. This expansion – towards free ceramic art – follows Olga's personal passion for this delicate, cool, earthy material. It is only logical that this step can only be taken at the highest level.

Zsolt Simon's artistic oeuvre focuses on free porcelain objects. Movement and creativity are inseparable from his life.

The white, unglazed porcelain sculptures have a magical attraction for the viewer; like ice sculptures frozen in motion, they attract our attention. Soft and hard abstract forms alternate in great harmony and evoke varied associations. The technique used by Simon is a further development of slip casting. This enables him to create fascinating effects between the inside and outside of his objects. Lightness and fluidity pair up in forms never before seen.
